

WESTENDGATE - INTERIOR FIT-OUT

FRANKFURT AM MAIN, GERMANY

Description:

With 47 floors and a total height of 159 m, the Westendgate forms the western end in the cityscape of Frankfurt skyscrapers. The iconic building is located near the Frankfurt Trade Fair and close to the financial district. In this central location, it offers 55,400 sqm of floor space divided into office space and hotel space for the Frankfurt Marriott Hotel. In 2012, RFR Holding and co-investor Stenham Property acquired the building, prompting a major refurbishment of the interior.

The Lindner Group was involved for the first time in 2010 in the revitalization of WestendGate, at that time as an executing company for

the renovation of the style-defining façade. Four years later, Lindner was chosen as general contractor for the complete tenant fit-out of 17,500 sqm office space in the Westendgate. Furthermore, the areas of the newly created Long Stay Hotel with 8,000 sqm were fitted out by Lindner. The fit-out was accompanied by noise-reducing measurements in order to reduce the discomfort for the ongoing operation of the building. Lindner carried out drywall work as well as the production and assembly of Lindner heated and chilled ceilings and glass partitions. In addition to this, the scope included the installation of several hundred doors and the coordination of various fit-out works, particularly painter, tiling and floor covering works.

General:

Concept/Product:	General contracting, Dry lining systems, Partition Systems, NORIT dry lining products
Building Type:	Office buildings, Hotels/Gastronomy
Client:	RFR Holding
Architecture:	Just Burgeff Architekten GmbH
Company Division:	Lindner GFT GmbH, Lindner SE Fit-Out Central.East Germany, Lindner SE Heating and Cooling, Lindner SE Partitions
